

Real Ale Quality Accreditation Scheme 2018/19

Congratulations! Your pub has been accredited by East Dorset CAMRA under a new trial scheme that has been launched which aims to recognise those pubs that consistently serve quality real ale. It is an important aspect of CAMRA's campaigning to improve real ale quality at the point of dispense and we hope this new scheme will be a means of helping to do that.

The quality of the real ale in pubs has been assessed over the last year by our members provided scores through the National Beer Scoring Scheme (NBSS) and your pub scored highly enough to be accredited.

Pubs that gain accreditation can publicise the fact, including displaying the attached window sticker, which should result in increased cask beer sales. Accredited pubs will also be listed on our branch website and in branch publicity such as our magazine ED's Pint.
